A note from Rai of RISU

Being funny and relaxed is, again, a given-up having a deep appreciation for minimalist design. When I created RISU, I had the goal of creating a clutter-free environment to inspire a more simple approach to life. Starting with your junk drawer, I understood that life gets busy and know that organization is the first step to a clear mind.

I want you to feel the same way I do about RISU. It's super important that you have good about your experience with my minimal organizer. If you are not completely satisfied or have a question, please get in touch with me so I can help.

SUMO

Get to know your SUMO ice cream scoop.

Your SUMO scoop uses a combination of food-safe materials like stainless steel, a super-strong plastic core, and a silicone-like rubber coating.

It can tackle even the hardest ice creams. The amount of ice cream the product can scoop is 1.5 oz.

For the perfect scoop, our ice cream experts recommend that you dip your scoop into warm water for 5-10 seconds before scooping your ice cream.

Mindful Pot Tips

Tip 1

Your Mindful Pot comes with a rubber plug which is located at the base of the pot. You can use the plug to prevent spillage or remove the plug to drain excess water.

Tip 2

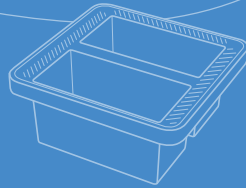

Most plants will be happiest by using a double-potted system. Simply pot your plant in a smaller container with drainage holes, then place the smaller pot inside your Mindful Pot.

Tip 3

Pause to admire your plants. Embrace the peace, calm, and stillness that your plants bring.

Portion Cubes Tips

Wash before first use

Fill the cubes using the measurement lines

Secure the lid to the base of the Portion Cubes

Use the erasable labels to label the content

Carefully place your Portion Cube in the freezer

Once frozen, push up from the bottom of the base to remove the cube

Store in a freezer gallon bag for later

Or place Portion Cubes directly in the microwave or oven up to 415°F. Remove the lid before placing it in the oven

Enjoy your perfect portion!

Organize in Style

Being born and raised in Japan, I grew up having a deep appreciation for minimalist design. When I created RISU, I had the goal of creating a stylish organizer to inspire a more simple approach to life - starting with your junk drawer. I understand that life gets busy and know that organization is the first step to a clear mind.

I want you to feel the same way I do about RISU. It's super important that you feel great about your experience with my drawer organizer. If you are not completely satisfied or have a question, please get in touch with me so I can help.

Care Instructions

Your Risu Drawer Organizer is designed to last a lifetime, but much like any other product made from nature, it does require your care.

Handle with care

Avoid heavy falls or repeated knocks, this will cause cracks.

Cleaning

✓ You can use a damp cloth to wipe your drawer organizer

✓ You can also use a light soap to wash the organizer but be sure to wipe up any water spills immediately

✓ Do not use an abrasive cloth or steel wool to clean the drawer as it may leave it with a harsh or pitted surface.

✓ Be sure to wipe up any water spills immediately
